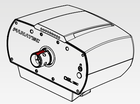
ATTACHING THE RIM

1

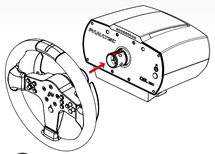
Use fixation screw (J) and Allen key (I) from box contents.

2



Align CSL Elite Wheel Base (A) axle to correct position.

3

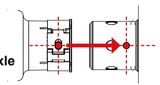


Slide CSL Elite Steering Wheel (H) onto CSL Elite Wheel Base (A) axle.

4

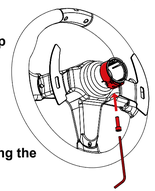
Turn the CSL Elite Steering Wheel (H) top side down to see the bottom side of the clamp ring to follow next step below

5



Push CSL Elite Steering Wheel (H) until the screw hole matches with hole on CSL Elite Wheel Base (A) axle

6

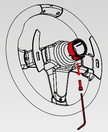


Turn in fixation screw (J) to fix clamp ring mechanism.
Use only the included Allen key (I).

⚠ IMPORTANT: Tighten only by using the short lever of Allen key!

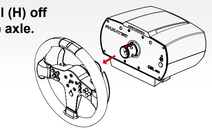
DETACHING THE RIM

1



Turn out the fixing screw (J) and open clamp ring mechanism.
Use only the Allen Key (I) which comes with the CSL Elite Racing Wheel!

2



Slide CSL Steering Wheel (H) off CSL Elite Wheel Base (A) axle.

3

Store fixation screw (J) and Allen key (I) safely for later use.

EXCHANGEABLE BUTTON CAPS

To detach the button caps, simply pull them out by hand. They can be replaced with the included set of racing style button caps for CSL Elite Steering Wheel (K).

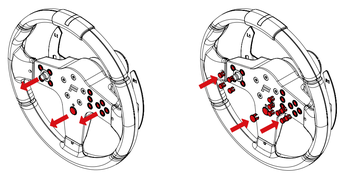


TABLE CLAMP

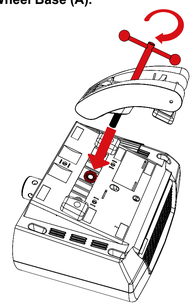
1

Insert the table clamp screw with handles (C) into the table clamp (B).

2

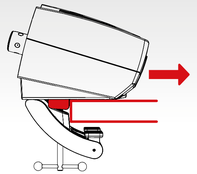
Turn the table clamp screw (C) into the bottom centre of the CSL Elite Wheel Base (A).



3

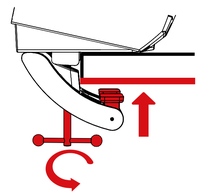
Slide the CSL Elite Wheel Base (A) onto the table top until the limiter blocks stop sliding at the edge of the table.

NOTE: Table clamp (B) has to be below table top.



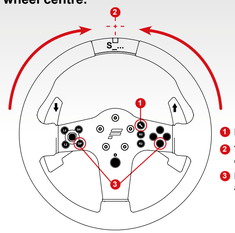
4

Tighten the table clamp (B) by turning the table clamp screw (C). Ensure that the table clamp's feet remain well aligned with the bottom of the table plate.



CENTRE CALIBRATION

If a centre calibration is needed (e. g. after firmware update of wheel base) you need to enter the tuning menu by pressing button as shown on the graphic → "S_..." will appear on the display. Now turn the wheel to its centre position and press two buttons OP + ✕ at the same time to calibrate the wheel centre.



1. Press tuning button
2. Turn the steering wheel to the centre position
3. Press the two buttons OP + ✕ at the same time

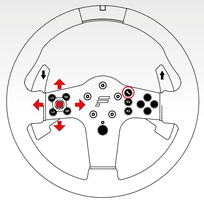
SHIFTER CALIBRATION

To enter shifter calibration mode, simultaneously press the two buttons OP + , highlighted below.
For the detailed process read shifter manual.

TUNING OPTIONS

To enter tuning menu press button . To navigate inside the menu, use the directional stick:

- Press directional stick up or down to access 5 setups
- Press directional stick right or left to go through the options and press or hold it up or down to change option values



MODES

The CSL Elite Racing Wheel will start in PlayStation®4 Mode by default when the CSL Elite Racing Wheel (H) is attached to the CSL Elite Wheel Base (A). To switch to other modes press the 'Mode' button once. The LED above the "⏻" button will indicate the current operation mode:

Blue indicates PlayStation®4 mode

Red indicates PC mode*

Purple indicates ClubSport Wheel Base V2 Compatibility Mode

* PC compatibility not tested nor endorsed by Sony Interactive Entertainment Europe.
